ABOUT ME

16 Personalities:
<https://www.16personalities.com/profiles/intj-a/m/8vk5b4ozp>
CliftonStrengths:
https://rawcodestudio.net/files/Soczka-Sebastian-SIGNATURE_THEME_PL.pdf

PROFESSIONAL PROFILE

Self-taught developer with 3+ years of commercial PHP/Laravel experience. I specialise in building web applications, automating business processes using AI (n8n, LLMs), and refactoring legacy codebases. Based in Poznań, open to remote and hybrid work.

PROFESSIONAL EXPERIENCE

Regular PHP Developer

Jan 2024 – present

Widoczni

Took ownership of the Client Panel project. Mentoring junior developers through onboarding, project ramp-up and day-to-day technical guidance. Building and extending internal CMS modules (Symfony packages) with focus on code quality and scalability.

Junior PHP Developer

Jun 2023 – Dec 2023

Widoczni

Automated generation of ~1,000 monthly reports (previously manual). System pulled data from GSC, GA, SENUTO — report factory, delivery pipeline, Chart.js visualisations. Refactored modules from PHP 5.6 to 7.3, built internal DataTables reports.

SEO Specialist

Sep 2020 – May 2023

Widoczni

Technical SEO audits across multiple CMS (WordPress, Shoper, Shopify). Built a browser extension (JavaScript) that automated team workflows — gateway to joining the IT department.

SKILLS IN PRACTICE

- Business needs analysis & technology selection
- AI-powered process automation
- Legacy code refactoring
- Cross-team collaboration
- SEO + Google Search Console

PORTFOLIO

Morning Hub

<https://morninghub.eu/>

Laravel · Vue 3 · TypeScript · Inertia.js

Personal productivity dashboard: ClickUp API, Google Calendar (OAuth 2.0), RSS feeds. Inertia deferred props, encrypted tokens, Google OAuth + TOTP 2FA.

<https://github.com/rawendil/morning-hub>

Jeźyc Jadło

<https://jezycjadlo.pl>

Laravel · Vue 3 · TypeScript · MapLibre GL

Interactive gastro map of Jeźyce district, Poznań. Google Places API, OpenStreetMap import, ray-casting boundary filter, MapLibre GL. SSR + JSON-LD, scheduled jobs, invite-only registration.

RawChart

Node.js · TypeScript · Express · PostgreSQL · Redis · Puppeteer

Microservice generating charts in three formats from a single API: JSON, PNG (Puppeteer + headless Chrome) and Embed (iframe). API key auth, per-IP rate limiting, Redis cache, Swagger/OpenAPI docs.
